Web Developer and graduate of UCF Coding Bootcamp with a passion for learning anything technology. Detail-oriented Army Veteran with excellent communication skills and ability to lead teams in high stress environments, and an enthusiastic developer with an eagerness to learn and grow my skills.

Technical Skills

Node.js, Express, JavaScript, jQuery, React.js, GIT, GitHub, MongoDB, MySQL, Firebase, HTML, CSS, Bootstrap, Materialize, Media Queries, APIs, JSON, REST, AJAX, the command line, handlebars, ES6, JSON, C

Projects

Furiends
- This site is a social media site for your pets. This allows you to go on and create a profile for your furry friend. You can then add photos and comments for those photos for others to see. You can look at all the other furry friends and their profiles as well.
- My role in this collaboration was lead developer and back-end design.
- Utilized Node.js, Passport.js, Cloudinary, MySQL, Sequelize, ES6, EJS, JavaScript, HTML5, and CSS3
- Deployed Site: https://agile-gorge-44903.herokuapp.com/

Devour the Burger
- This site allows you to go on and create your favorite hamburgers and then devour them. This site show persistence with all other users.
- Site to demonstrate use of HTML5, CSS3, Node.JS, Express, MySQL, Sequelize, and Materialize
- Deployed Site: https://murmuring-fortress-51358.herokuapp.com/

Parent and Kid Site
- This was a site made for parents and kids alike. The kids side utilizes a timing feature to limit the child's video watching. For the parents it allows them to look up articles and chat with other parents.
- My role in this collaboration was lead developer and authentication setup through Google Firebase.
- Utilized Firebase authentication, Firebase database, HTML5, CSS3, Bootstrap, JavaScript
- Deployed Site: https://gutierrez88.github.io/Project-OneSelf/
